UBC VIRTUAL GRADUATION
SPRING 2021

JUNE 2

TUUM EST

Dear Graduate,

Today's virtual ceremony celebrates your very real accomplishment.

Your graduation began long before this day. It began when you made the choice to study that extra hour, dedicate yourself more deeply and strive to reach for the degree you had chosen to fully commit your life to pursuing.

Many of the people that helped you arrive here today—family, friends, classmates—are watching this ceremony with you. While they may not be physically next to you, they stand with you in spirit, take pride in your achievement and share your joy.

We are honoured to have given you a place to discover, inspire others and be challenged beyond what you thought was possible.

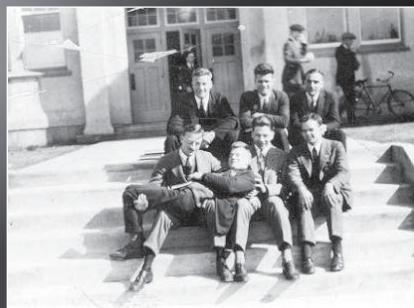

Yours,

UBC

The UBC graduation journey has been forged by the spirit of the university's motto, *Tuum Est*, (meaning 'it is yours') since 1915. Today, you, the graduating class of 2021, now shape UBC's history by making it your own.

1916

One of the first graduating classes was the Arts Class of 1916 pictured here at a party at the home of Mary Wilons. In UBC's first year, there were only three faculties: Arts, Applied Science and Agriculture with 379 registered students and 34 faculty members.

1920S

The twenties saw the student-led Great Trek to UBC's new Point Grey campus, establishing the university as a place of mind for students the world over. The AMS incorporated as a non-profit society and the university began awarding its first graduate degrees to students. In the *Ubyssey*, published in September 23, 1925, students described the new campus with a sense of wonder: "We are dazed with the appearance of architectural cleanliness and bewildered by our lineal freedom."

1940S

The forties were an era of tremendous change at the university as both students and faculty embraced the war effort. In 1943, new President Norman MacKenzie began in earnest to expand the university and new departments were formed along with new buildings to house them including Brock Hall, the first student union building. By the 1950s, UBC had established itself as a comprehensive university and top choice for students in BC and beyond.

1960s

Student numbers continued to escalate alongside the scholarly activities that began to define UBC as a leader in research. The campus was alive with sixties counterculture and a sixth president of UBC was elected by the name of Dr. Walter Gage. New student residences were created to respond to the expanding student body as well as a new student union building. Students gain influence at the university and are elected to the University Board of Governors for the first time.

1980s

With over 34,000 students registered at the beginning of the eighties, UBC began attracting scholars from all over the world. Engineering students were in the news frequently for their pranks, which included the famous Ladner Clock Tower stunt in which students pulled off hoisting a white Volkswagen Bug onto the top of the tower. Dr. Martha Piper was elected President in 1997 and ushered in an era of international engagement that saw UBC step onto the world stage as an educator and global centre for research excellence.

2021

This year, we celebrate the 75th anniversary of the School of Kinesiology and its history of improving societal health through human movement and sport.

Overall, the year 2021 is notable for extraordinary challenges. The global COVID-19 outbreak dramatically altered the socioeconomic landscape. From students assisting frontline workers to researchers developing potential treatments and vaccines, this year's graduates are making a difference by helping to combat the global pandemic. Their determination and resilience is helping them to achieve their goals and shape a better future for all of us.

The University mace is a symbol of the authority of the Chancellor. It is displayed on ceremonial occasions, most notably during graduation ceremonies but also during the installation of a president or chancellor.

THE UNIVERSITY MACE

In the fall of 1957, the University commissioned Haida carver Bill Reid to undertake the project. Owing to Reid's heavy workload, he suggested that George Norris be asked to help design and carve the mace. The planning of the mace took some time and a final design was not approved until 1959.

Norris carved the mace from a block of yew and it included a stylized thunderbird on the thick upper portion. The mace also featured the use of copper that was prominent in Northwest Coast native art. This copper trimming was designed and prepared by Bill Reid. Norris completed the mace in 1959 and it was first used at the fall graduation ceremony where the Director of Ceremonies, Malcolm McGregor, carried it for the first time.

CEREMONIAL REGALIA

The hoods, gowns and hats worn by those participating in the academic ceremonies are lined with colours to indicate the degree they have been conferred, a tradition dating back to the Middle Ages when the first universities were founded.

In 2019, UBC approached the xʷməθkʷəy̓əm (Musqueam) and Syilx Okanagan Nation to collaborate on a project that would add Indigenous symbols of host nations of each respective campus to the academic regalia of senior administration.

Chrystal Sparrow, a third-generation xʷməθkʷəy̓əm artist and carver from the xʷməθkʷəy̓əm Indian Band, was selected by a committee with representatives from each campus and host nation, and she designed the new regalia for the Chancellor, members of the Board of Governors and the President and Vice-Chancellor. These new regalia were introduced to the UBC community and worn for the first time at UBC's fall 2020 academic ceremonies.

GRAD CLASS LEGACY

UBC students have a rich legacy of giving gifts and donations to the UBC Vancouver campus. Since 1919, there has been a tradition of gifting and/or dedicating a tree in honour of the graduating class.

The 2021 grad class tree is an American Elm (*Ulmus americana*), located on the north side of University Boulevard by Main Mall.

The gift to the University serves as a memorial to the outgoing class, a token of appreciation to the school and a reflection on time spent as students at UBC.

This year's class finished their time studying at UBC physically separated due to the COVID-19 pandemic. Despite this challenge, students persisted and thrived. As a reflection of these unusual circumstances, the AMS is presenting a gift of an outdoor pavilion for use by all future students as a place of gathering, communal learning and inclusion.

The class has enlisted members of the School of Architecture to assist in the design and construction of the pavilion. It will be built sustainably using novel materials and methods and will address comfort and energy efficiency through state-of-the-art heating and cooling techniques. The structure will be erected on the Point Grey campus, providing shelter, seating and a place for outdoor student gatherings for generations to come.

On behalf of more than 370,000 UBC alumni from around the world, it is my pleasure to bring greetings and congratulations to members of the graduating class.

At the same time, the occasion is admittedly bittersweet, for nothing would have been more enjoyable than to be to be together with friends and families to celebrate your achievements.

Indeed, the completion of degree requirements exemplifies intelligence, discipline and resourcefulness. But beyond these traits, my greatest hope is that your university experience has taught you new ways of thinking, and specifically a greater understanding of the importance of reliable evidence in the pursuit of truth and informed opinion.

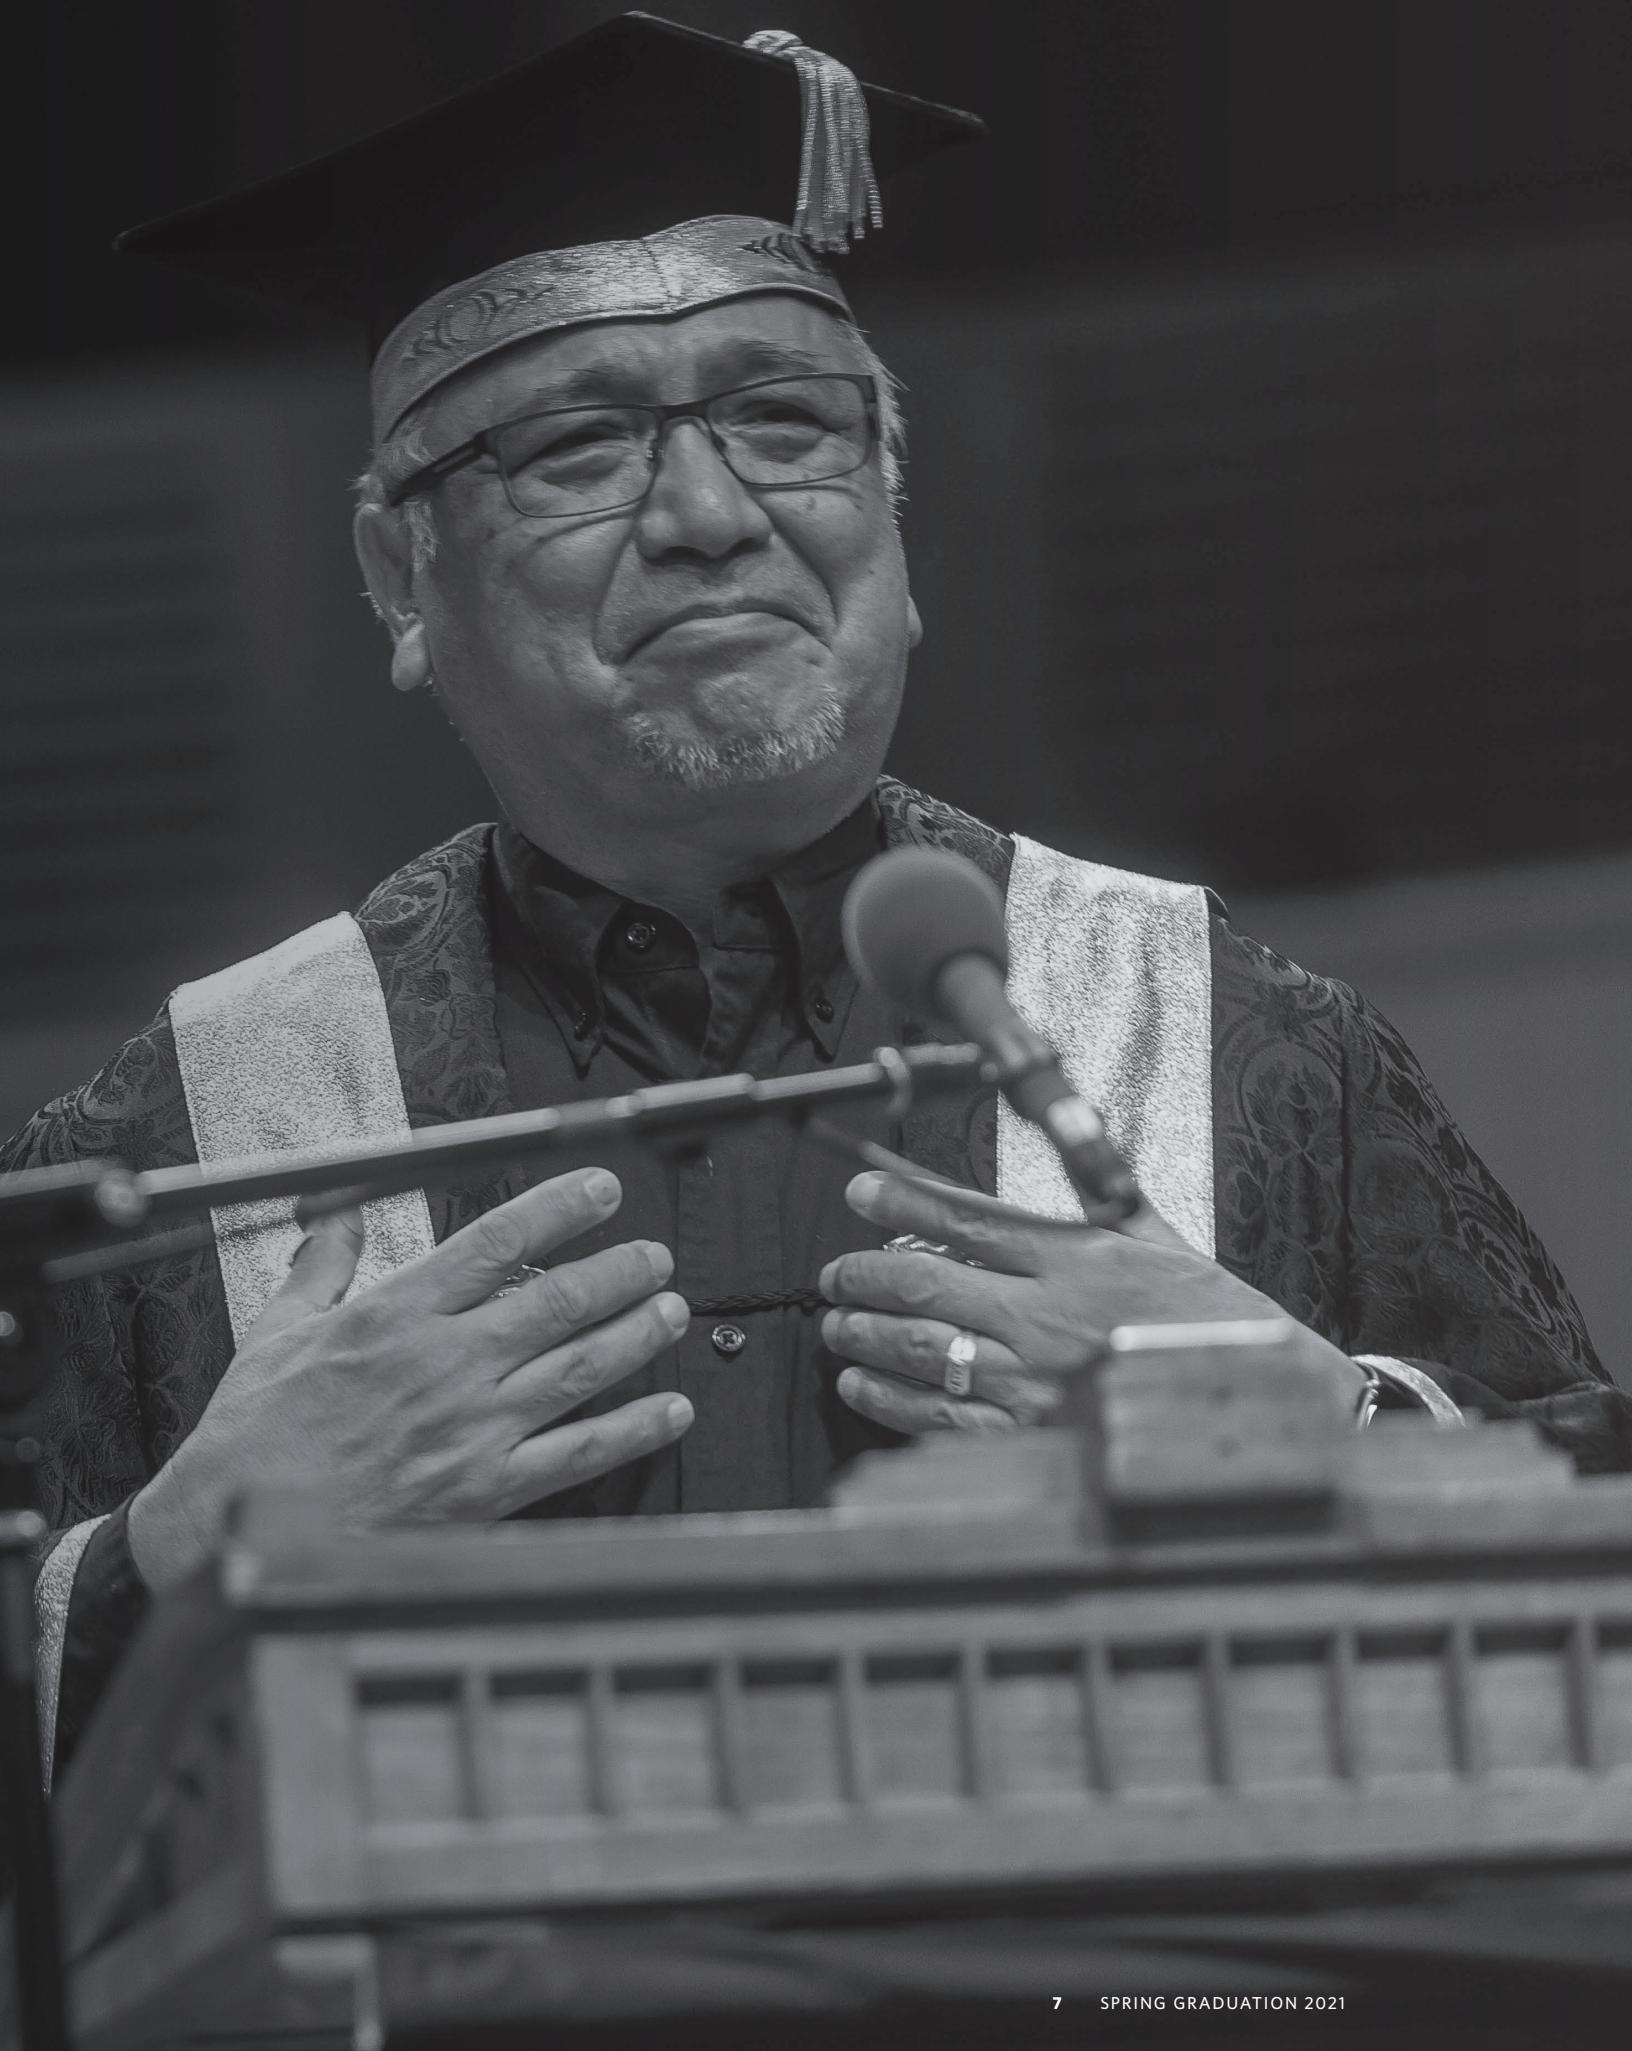

Irrespective of what program or degree you have completed, you have invariably been asked to examine divergent theories and then present your own conclusions along with evidence to support them. Indeed, the ability to find and present reliable evidence is the most important outcome of a university education.

My challenge to you as UBC graduates is to continue to be truth seekers on the journey ahead, and to continue to refine your research skills as you navigate what may at times seem to be a turbulent world. You may pleasantly discover that these modern challenges can have a unique way of fostering greater measures of much-needed prudence and graciousness. But only if we are relentless in the pursuit of truth, and of corresponding actions that serve the greater good of humankind. Only then can our spirit and our character truly prevail.

I also encourage you to regard your UBC graduation not as the end of a journey but as the beginning of a new one, as alumni of one of the world's most renowned centres of learning and research. We hope that you remain engaged with your university and your fellow alumni, and that you will work together with them to create a more just, compassionate and sustainable world.

Again, warmest congratulations and best wishes to all.

— THE HONOURABLE STEVEN POINT
(XWĒ LĪ QWĒL TĒL), O.B.C., LL.B.'85,
LL.D.'13
Chancellor

Congratulations! Graduation is a momentous day in your life. It is a time to look back at all you've accomplished and a time to look ahead to what's next.

I hope that when you do look back on your time at UBC, you will do so with fondness, and that when you look ahead, you will see UBC as a part of your future. You will always be welcome here, and we look forward to hearing about your personal and professional achievements as you build on the foundation provided by your UBC degree.

As new graduates, you are joining a large group of remarkable people who have preceded you through this ceremony. Today, the graduates of UBC excel in practically every field of human endeavour. Three graduates have served as Prime Minister of Canada—including the incumbent Justin Trudeau. Seventy-one graduates have been awarded the Rhodes Scholarship and 65 graduates have won an Olympic medal. Our alumni include scientists, inventors and entrepreneurs, educators, activists, artists, writers and humanitarians. Wherever they may be, our talented graduates are contributing to the wellbeing of their fellow citizens and solving some of the grand challenges that face humanity.

As you begin a new stage in your life and experience, you can be confident that you can and will make a difference, because like the UBC graduates who have gone before you, you possess the knowledge and skills that are conferred by an excellent education.

At every level and in every course you've taken here, you have been exposed to the rigours of critical thinking, to the complexities of problem-solving, and to the need for risk-taking and imagination in the creation of new ideas. You have developed strong communication skills in a variety of media, and learned the value of teamwork and collaboration. You have encountered people and ideas from a wide variety of backgrounds, in the process acquiring a new understanding of cultures and traditions that differ from your own.

As you embark on the next stage of your life's journey, do not be afraid to take up the challenges that await you. You will have many opportunities to turn your hard-earned expertise and knowledge to good use, to become involved in your society, and to offer your ideas and solutions with the confidence that they will be heard and respected.

In his address to UBC's initial graduating class in 1916, UBC's first President Frank Wesbrook encouraged students to make our world a better place in which to live. Today, over a century later, I echo his remarks. I believe each of you has the capacity and skill to succeed and make our world a better place.

As you celebrate this transformational day with your family and friends, take a minute to reflect and think forward to the many ways you might help shape the world in the years ahead.

And one more thing. Graduation should never mean goodbye. As Professor Wesbrook also said at that time, *Tuum Est*—it's your university—today and always.

Best wishes,

— SANTA J. ONO
President and Vice-Chancellor

GOVERNOR GENERAL'S MEDAL

The Governor General's medal is awarded to the student graduating with the highest academic average in their field of study.

**Governor General's Gold Medal
(Doctoral Programs): **Madeleine Ransom****

Dissertation title: Perceptual Learning for Expertise

One gold medal is awarded to the student who has achieved the most outstanding academic record as a doctoral student. This year's recipient is Dr. Madeleine Ransom from the Philosophy program. Under the supervision of Dr. Dominic Lopes and Dr. Murat Aydede, Dr. Ransom's research focused on how the perceptual experience of novices changes as they acquire expertise. Her research has made ground-breaking contributions to the field of perceptual learning. Dr. Ransom has distinguished herself as an expert and leader in her field with her cutting-edge research.

**Governor General's Gold Medal
(Master Programs): **Nevena Rebić****

**Thesis title: What are Womxn Thinking?
Understanding Perinatal Management of Rheumatoid Arthritis Using a Feminist Epidemiological Framework**

One gold medal is awarded to the graduate student who has achieved the most outstanding academic record as a Master's student completing a thesis. This year's recipient is Nevena Rebić from the Pharmaceutical Sciences program. Under the supervision of Dr. Mary De Vera, Nevena used an intersectional feminist framework to investigate how female patients with rheumatoid arthritis make reproductive and medication decisions. During their Master's studies, Nevena excelled as an academic and as a researcher, including authoring 11 published and 3 submitted

peer-reviewed articles. Nevena has been widely recognized for their outstanding contributions to their graduate program and to UBC.

**Governor General's Silver Medal in Arts
(Bachelor Level): **Niklas Groschinski****

Niklas is a passionate scholar and has successfully completed his Bachelor of Arts in Honours Art History with a Minor in Italian Studies. He plans to pursue an MA and a PhD at the Warburg Institute after his undergraduate studies at UBC. Niklas has interdisciplinary interests in philosophy, the visual arts, and literature, particularly in regard to the Italian Renaissance and German Romanticism. He is concerned with counteracting the crisis of meaning and identity faced by the globalised, modern world. For that purpose, he has done extensive research on European esoteric thought and myth, together with Dr. Daniela Boccassini, and has also shown great interest in non-European cultures and wisdom traditions. His thesis, supervised by Dr. Catherine M. Soussloff, offers a novel interpretation of an enigmatic painting, based on an in-depth analysis of its historical context. He has won the Trek Excellence Scholarship and C.A. Stuart DeVitt Memorial Scholarship, as well as the Andrew MacIntosh Memorial Book Prize for his paper written in a graduate art history course.

**Governor General's Silver Medal in Science
(Bachelor Level):
Fangzhao Zhang**

Fangzhao has impressed both her instructors and fellow students with her extraordinary academic achievements while pursuing a demanding Combined Honours degree in Computer Science and Mathematics. With 13 perfect grades of 100% and an average of 98.49% in her top 60 credits, her professors comment that she is an extraordinarily sharp student with a strong work ethic who quickly absorbs new concepts and poses insightful questions. A professor notes that she is very appreciative of the patience and

friendliness of all her professors and fellow students, and credits UBC with helping her develop the courage and motivation to continue her academic career. The Faculty of Science offers sincere congratulations to this exemplary young scientist as she embarks on a Ph.D. program in Electrical Engineering at Stanford University in the fall.

**Governor General's Silver Medal
in Applied Science (Bachelor Level):
Lauren Puumala**

Lauren Puumala is graduating from the UBC Integrated Engineering program as the highest-ranking student in its 20-year history. Throughout her time at UBC Lauren has demonstrated strength after strength in every area of academics, research, professional communication and open-ended project work. She has actively searched out opportunities to expand her knowledge and experience in different areas of science and engineering, which has included spending time on areas as diverse as ultrasonic therapy for the treatment of serious infections, sustainable recovery and reuse of the wasted byproducts of paper production, and using MRI technology to better understand the biomechanics of the body. Lauren has also made time to contribute to the UBC community and her local community through the university's Scholars Community to help students transition to university, and through youth outreach opportunities to promote diversity in engineering. We wish Lauren the very best as she begins her graduate studies here in UBC Applied Science working in the field of biosensors and biomarkers targeted for neurological indications of brain injury.

SCHOLARSHIPS, MEDALS & PRIZES

LIEUTENANT GOVERNOR'S MEDAL

Awarded to the most academically outstanding student who contributes to the community in areas of inclusion, democracy and/or reconciliation.

Lieutenant Governor's Medal for Inclusion, Democracy and Reconciliation: **Xi Yuan Pang**

Graduating with an honors degree in Political Science and given her tireless efforts in civic engagement, Xi Yuan (Cecilia) Pang is truly deserving of this award. She is driven by a curiosity and passion for how she and others can contribute sustainably and meaningfully to the world through collective action. Her interests have stemmed not only from her research as a political science student, but through activism and entrepreneurship in her community and from her accomplished background in the arts. Over the span of the past eight years, she has had the privilege of creating empowering spaces for youth civic engagement. From founding initiatives such as [ajourney2success.com](#) and Art2Heart Foundation to co-chairing YWCA Metro Vancouver's Youth Advisory Council, she has been able to connect thousands of youths locally and globally and given youth opportunities to feel confident in their community involvement via authentic self-expression in arts and writing.

Growing up, Cecilia acknowledges the challenges her parents faced in starting a new life in Canada. Their hard work has provided her an opportunity to pursue her passions, and it is this gained privilege that she intends to share with the hopes that it will empower and inspire others. Her work and success will no doubt leave a lasting and positive impression on both the university and our community for years to come.

O CANADA

O Canada
Our home and native land!
True patriot love in all of us command.
With glowing hearts we see thee rise,
The True North strong and free!
From far and wide,
O Canada, we stand on guard for thee.
God keep our land glorious and free!
O Canada, we stand on guard for thee.
O Canada, we stand on guard for thee.

HAIL UBC

Hail! to the Thunderbirds,
Hail! UBC,
Thunder and Lightning,
Onward to victory!
Hail! to the blue and gold,
Hail! UBC,
UBC forever!
Onward to victory!

— *Words and Music by Prof. Stephen Chatman (2009)*

That UBC has a pep song—let alone a newly composed one—may prompt some surprise, as university pep songs are rare in Canada. Originally written in 1931 by Arts student, trumpet player, and band leader Harold King, Hail UBC was widely performed at athletic events for decades. In 2007, Professor Stephen Chatman was charged with composing an updated version suitable not only as a pep song, but also a celebratory anthem for ceremonies and other campus events. It is played at the end of every graduation ceremony as the procession exits. Though the new Hail UBC retains only the title of the original 1931 version, it is a throwback to the pomp and bluster of the early 1900s, when such pep songs were in their heyday, and promises to give UBC students something to cheer along with for another hundred years!

STEPS FORWARD

STEPS Forward supports young adults with intellectual disabilities in auditing courses and participating in campus activities at colleges and universities in British Columbia. Over a four- to five-year period, these young adults are supported in the educational, athletic, social and other life-defining challenges of student life.

Welcome, Class of 2021, to your new and honoured place among more than 370,000 UBC alumni in 150 countries. That's a powerful network to help build your life and make a real difference.

Many students don't realize that when you graduate from UBC, you automatically become a member of *alumni UBC* and your relationship with the University enters a whole new phase.

You might be surprised at just who your fellow alumni are, and their levels of accomplishment, influence and contribution to society. No matter where you go, you will find yourself in the company of amazing people who are making a real difference in the world—educators, artists, doctors, nurses, business and community leaders—UBC grads who will be your role models, mentors, colleagues and friends. *alumni UBC* will help you connect through our email updates, website and social networks.

You can participate in our mentoring, cultural, education and career-building programs, here in Vancouver and around the world through alumni networks as far away as London, Hong Kong and Seoul, or as close as Victoria, Calgary and Toronto.

On the Point Grey campus, the Robert H. Lee Alumni Centre is your alumni home for life, where you can make alumni connections, attend events or book your own meetings or celebrations.

You can also stay connected through our *alumni UBC* app, with many features including library privileges, online journal access, webinars and podcasts, and special offers for UBC alumni through our corporate partners.
